

PHYSIVERSE

Phase 3 – UI/UX System & Design Documentation

Version: 1.0

Design Philosophy

Create a platform that feels like:

Apple Education + Interactive Science Museum + Modern SaaS + NASA Infographics.

The platform should be:

- Clean
- Scientific
- Professional
- Immersive
- Educational

Animations should improve learning instead of becoming distractions.

Brand Personality

Intelligent

Innovative

Futuristic

Educational

Professional

Design Principles

Learn by Seeing

Learn by Doing

Learn by Exploring

Learn by Experimenting

Learn by Playing

Theme Strategy

Light Mode First

Benefits:

- Better readability.
 - Better for long study sessions.
 - Better for formulas and diagrams.
 - Cleaner educational appearance.
 - More professional.
-

Color System

Primary

Energy Orange

#FF7A00

Framer Motion

GSAP

Lenis

Animation Principles

Purposeful.

Smooth.

Educational.

Natural.

Motion Types

Fade

Scale

Parallax

Depth

Scroll Reveal

Magnetic Hover

Mouse Interaction

Scroll Storytelling

Homepage should behave like:

Apple Product Pages.

As user scrolls:

- Camera moves
- Objects animate
- Physics concepts appear
- Sections transform smoothly

Applications

Mobile Design Strategy

Mobile First.

Bottom Navigation.

Large touch targets.

Minimal UI.

Fast loading.

Accessibility

Keyboard Navigation

Screen Reader Support

High Contrast Text

Reduced Motion Mode

Responsive Typography

Tailwind Design Tokens

Primary:

FF7A00

Background:

FAFBFC

Surface:

FFFFFF

Text:

111827

Muted:

64748B

Border:

E5E7EB

Accent:

3B82F6

Final Design Goal

Create an experience where students feel:

"I am inside Physics."
